Number of Hospitalizations and Hospitalizations with Intensive Care

Filename   FOI Tracking Sheet.xlsx

Data source   1   Discharge Abstract Database

Extract date   2021-10-22

Notes

1 Hospital cases are included if they occurred at a BC hospital. (HOSP is not 997)

2 Cases are included if they were acute care or rehabilitation cases. (LEVEL is 'A' or 'R')

3 Cases discharged from hospital between April 1, 2015 and July 31, 2021 are included. Data is reported by fiscal year of hospital discharge.

   Note that hospitalization data comes from the Discharge Abstract Database. Data is complete only to the May 31, 2021. Data beyond May 31 is considered incomplete with acknowledgement that additional records for submission are pending. All data for 2021/22 fiscal year is subject to change for corrections.

4 Intensive Care Unit (ICU) cases are hospital stays with at least one day spent in ICU. (ICUDAYS>0)

RMS HSIAR0001668

Number of Hospitalizations and Hospitalizations with Intensive Care

April 01, 2014 - May 31, 2021

PAS HSIAR0001668

BC Hospitalizations and Hospitalizations with ICU admissions by Level of Care and Fiscal Year (2014/15 - 2021/22 Year to Date (YtD))

Hospitalization Type	2015/2016	2016/2017	2017/2018	2018/2019	2019/2020	2020/2021	2021/2022 YtD *	2021/2022 Apr	2021/2022 May
Acute Inpatient									
With ICU admission	39,545	39,953	39,656	40,032	40,536	39,160	6,549	3,349	3,200
Without ICU admission	402,852	411,247	415,153	418,483	419,755	391,818	69,514	34,736	34,778
Acute Inpatient Total	442,397	451,200	454,809	458,515	460,291	430,978	76,063	38,085	37,978
Rehabilitation Inpatient									
Without ICU admission	595	603	584	573	731	844	127	57	70
